

Pumps

Reef Pump Range

High quality, compact DC pumps suitable for salt and freshwater aquariums.

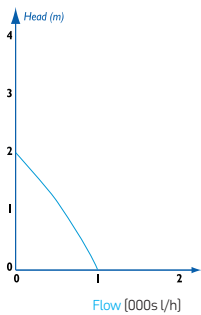

- Incorporates the latest electronic pump technology for high power and flow rates combined with efficient energy consumption.
- Low voltage (24v).
- Variable speed control with up to 20 different speed settings, offering precise adjustment of water flow for optimum performance.
- Easy to access compartments allow simple maintenance and cleaning.
- Super quiet running.
- Integrated feed timer shuts off the pump for 10 minutes to allow easy feeding.
- "Soft Start" feature to increase impeller life.

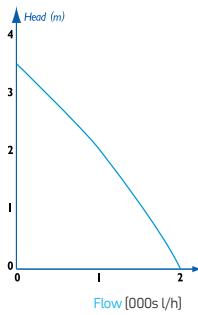

Reef Pump Range

Code	Product	Flow Rate (l/h)	Min. Power (w)	Max. Power (w)	Voltage (v)	Max. Amp	Max. Head (m)	Dimensions (m)
1080	Reef Pump 1000	1000	3	10	12	0.38A	2	112 x 62 x 115
9911	Reef Pump 2000	2000	7	33	24	0.83A	3.5	128 x 67 x 123
9913	Reef Pump 4000	4000	12	33	24	2.29A	4	170 x 79 x 155
9917	Reef Pump 8000	8000	20	94	24	3.54A	4	170 x 79 x 167
9921	Reef Pump 12000	12000	16	103	24	4.17A	4	206 x 93 x 177
