

Gamma Frozen Food

Blister

Highest quality ingredients, rapidly packed, sealed & frozen. Gamma irradiated. This completely eliminates any risk of introducing harmful parasites or bacteria into your aquarium, and also means that the food is completely safe to store in your freezer.

- 100% natural products and the wide variety available ensures that individual species of fish receive a balanced, varied and interesting diet.
- Blister packs are designed to dispense one measured cube of food at a time, leaving the rest of the product sealed within their separate blisters.
- A quick and convenient way of feeding fish.
- Colour-coded feeding suitability guide makes it easy to find the right food for your fish.
- For marine, tropical, coldwater and discus.
- The only food used by Tropical Marine Centre at its four fish-holding facilities.

Blister
