

Dosing Systems

Reef Easi-Dose Plus

High precision, programmable dosing system for accurately dosing supplements and/or feeds in both freshwater and saltwater aquariums.

- Compact design incorporates 1, 2, 3 or 4 independent, controllable dosing pumps.
- Compact design with built-in communication capability allowing the dosing master system to be integrated with the EASI-Stir magnetic stirring system [not supplied] for more advanced, automated stirring and dosing of your chosen dosing liquid.
- Includes calibration capability which allow dosing pumps to be individually calibrated to each chosen dosing liquid, ensuring accurate dosing.
- Digitally adjustable for accurate and reliable dosing.
- Extremely user friendly, for simple set-up and use.
- Energy-saving and low wattage [3w].
- Dosage 0 - 199ml.
- Dosage frequency: max 24 times per day.
- Supplied complete with 3m flexible hosing.

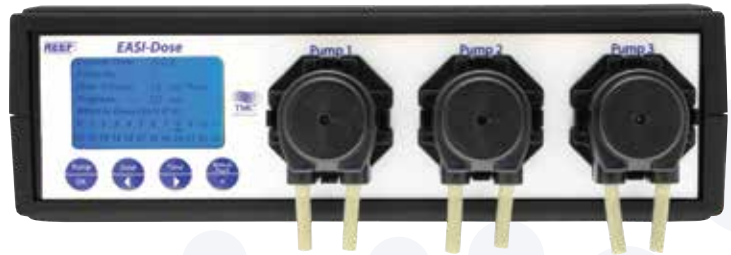

Reef Easi-Dose Plus

Code	Product	Details	Dimensions [mm]
