

Biofiltration

RK2 Protein Skimmers Saltwater

RK2 Protein skimmers are manufactured in the USA and have been used extensively in large scale commercial applications such as public aquaria and fish farming facilities.

- RK2 Protein Skimmer bodies are a one piece, rotationally moulded design, eliminating the potential for leaks and failures from seams and weld points.
- Manufactured from HDPE, the bodies are rugged and ozone safe. They are also UV resistant making them safe for indoor or outdoor applications.
- Automatic washdown systems allow for a simple programming of rinse cycles, reducing maintenance and ensuring optimum performance.
- Separate ozone connection ports and air flow meters enable precise controlled airflow and ozone injection.
- Moulded HDPE Screw Top Lid for easy access.
- Clear Sight Gauge to enable you too simply monitor skimmer run levels.
- Available in Standard and High Flow variants, for saltwater and freshwater applications.

Available separately

Battery autowash timer valves

Ozone generator

Redox controller

Atmospheric ozone monitor/controller

Supply pump

RK2 Protein Skimmers Saltwater

Code	Product	Flow Rate				Venturi Pump	Rec. System Volume [m ³]	Ozone Req. (g/hr)	Inlet/Outlet connections (")	Dimensions l x w x h (mm)	Approx. Shipping Weight (kg)
		2 min retention		1.5 min retention
