

aquaGro  
FOR PLANTED AQUARIA

# Biome

Desktop aquarium for planted aquascapes

High clarity nano aquarium manufactured from **ultra-clear low iron glass** for super clear true to nature viewing

**Built-in filtration system and integral low voltage DC pump** with multi-directional outlet ensure optimum water quality and minimal maintenance

Supplied complete with a **sleek full spectrum low voltage LED** light with seven different pre-set light modes perfect for tropical freshwater set-ups and optimum plant growth

**Compact low voltage heater** pre-set to 25C

Everything including the heater, LED light and pump **neatly plugs into ONE low voltage power supply**

Compact, self-contained design makes the Biome ideal for bedrooms, kitchen, living rooms and offices

**Perfect for small planted aquascapes** and miniature ornamental freshwater shrimps such as bee shrimps and crystal shrimps

Supplied complete with:

- Low voltage LED light
- Low voltage DC Pump
- Low voltage heater
- Condensation lid
- Built-in filtration system
